

# BRIDGES *out of* POVERTY

## TWO DAY WORKSHOP Presented by Nairn Walker

Have you ever had customers or worked with clients who...

- Have Pay TV, console games, mobile phones, but no money for rent, food and 'the basics'?
- Don't turn up to appointments and don't know what they want?
- Often treat you and your organisation with suspicion, disrespect or disdain?
- Don't seem to care about employment, next week or their long term future?

What will I learn?

- Why clients often behave the way they do.
- How socioeconomic class affects behaviours and mindsets: the hidden rules of generational poverty, middle class and wealth.
- Strategies for optimising outcomes with individuals and families.
- The importance of mutual exchange.
- The impact of language on relationships and outcomes.

Bridges Out of Poverty is a two day workshop that helps us understand the challenges faced by poverty and how it shapes the interactions and experiences of a person's everyday life. It offers solutions that are practical and strategic, addressing every interactions through to policy implications in every sector.
