This will be my last message due to new General Manager Michael Stretton starting today (04 November 2014) and Mayor Robby Walsh successfully being re-elected. I wish to take this opportunity to thank the Mayor, Councillors and staff for having me on board for six months and I am sure the Council is in very good hands with Michael at the helm. I have grown fond of the region during my time here and expect to be becoming a regular visitor to the area.

Council has recently released the first ideas to create a Wynyard Waterfront Environ Masterplan. This is a great start to get the community talking about what Council can do to help shape this important part of Wynyard. For more information and to have your say please visit Council or go to www.warwyn.tas.gov.au/oursay

Council will be commencing kerb reconstruction works at the Camp Creek Bridge on Goldie St/ Old Bass Highway Wynyard commencing today (04 November), weather permitting. The works are expected to continue for about 4-5 weeks Short delays to traffic are expected, however, Council will endeavour to keep interruptions to a minimum.

As the final step in Australia’s move to digital-only TV, some TV channels in Waratah and surrounds will change frequencies tomorrow (05 November). You will need to retune your digital TV, set-top box or digital TV recorder to find the channels that have moved. For most systems, just press the “menu” button on your remote and follow the prompts to retune. For more information go to: www.digitalready.gov.au/retune
