I was disappointed to hear that about 30 plants planted by Landcare were recently removed from the Anzac Park area in Somerset. Another 15 or so plants, planted by Council, near the tennis court have also been removed. Considering some of these plants were put in place to help erosion issues and the costs involved it is troubling to hear that these plants have been removed. If you have any information about this or any other cases of vandalism please contact Council or Tasmania Police.
