THERE have been a number of landslips in the Waratah-Wynyard area as a result of recent rains including at Table Cape and Boat Harbour. Council continues to monitor these situations as it becomes aware, but appreciates if you can contact us to advise you have a landslip situation on your property. This is so that we can not only ensure that the landslip won’t cause significant impacts to your property and Council assets, but also so that we can help guide you in to how to address the issue. To advise a landslip please contact Engineering Services on 6443 8351.

I WOULD like to remind residents that there are only a few more days to have your say on the Draft Sustainable Murchison Community Plan. This plan is designed to provide a unified 25 year vision for the Waratah-Wynyard, Circular Head, King Island and West Coast Councils. Options to get involved include viewing and comment on the draft plan via [www.placespeak.com/murchison2040](http://www.placespeak.com/murchison2040) or by sending us your thoughts in writing, as a submission via email to any of the participating Councils or by posting your comments to the Sustainable Murchison Community Plan, PO Box 168, Wynyard, Tasmania, 7325.

A NEW men’s group is setting up in Wynyard. Man-2-Man is being coordinated by combined churches of Wynyard to provide the opportunity for men to get together and chat. The first meeting will be on Friday 2 September, and the second on Friday December 2 from 6.30pm at the Railway Institute Hall, Station Street, Wynyard. For more information contact Charles 6442 1338, Vern 6431 4257 ot Barry on 0400 171 892.
