GENERAL INFORMATION

Introduction

The Wynyard Foreshore Market is located on the foreshore at East Wynyard and operates between the hours of 8.00am and 2.00pm on 1st and 3rd Sunday of the month throughout the year. Twilight Markets may run at the discretion of the Market Coordinator.

The Foreshore Market is a key economic and recreational focus for the Wynyard community and visitors. The following information have been developed to assist you as a stallholder to meet the expectations of the community and requirements of the market.

Sites

The majority of sites at the Foreshore Market are 4 metres wide and are set 2 metres off the walking track and go back towards the road. Some sites are wider but not as deep and will accommodate smaller stalls only. **The walking track must be kept clear at all times.** Reserved sites will be identified; all site areas are identified by markings on the walking track. Stalls must be within the boundary of the designated numbered site.

Casual Sites

Casual sites are not available on a reserved basis and can be paid for as follows:

- On the day with a receipt issued by the Market Coordinator.

Charitable Sites

Wynyard Foreshore Market allocates one free stall space for use by charity groups and fundraisers at each market. To use this space, the charity needs to provide a letter of verification from the organisation they are raising funds on behalf of.

Charities may register to use the space for up to six free market stalls per calendar year. Once a charity has exceeded the six free markets per calendar year, the charity is required to pay for a site. If no other user is in the free charity space, a charity who has already exceeded their six free uses may occupy the charity site for free, but priority will be given to other charities.

Please contact the Market Coordinator directly to reserve the free charity space.

Traffic and Pedestrian Management

The General Information and Conditions for stallholders should be read in conjunction with the *Vehicular and Pedestrian Management Plan* for the Foreshore Market. This plan outlines the requirements for the management of the market in relation to vehicles and pedestrians. The plan will have additional requirements which must be adhered to by all stallholders.
