### MESSAGE FROM THE MAYOR AND GENERAL MANAGER

It gives us both great pleasure to present to you the Waratah-Wynyard Council 2017 / 2018 Annual Plan, the first under the new Sustainable Murchison Community Plan 2040 and Corporate Strategic Plan 2017 / 2027 which now collectively provide the vision and direction for our Municipal Area.

The Annual Plan, as prepared, consolidates the various plans and projects which the Council has committed to delivering and includes completion of repairs from the June 2016 Flood event. It has a strong focus on the completion of the Somerset Village Development Plan and the delivery of the Wynyard Foreshore and Environs Masterplan, including the new Goldie Street North Carpark and civic space. A number of the projects in the Plan had to be delayed last year in order to fund the necessary emergency flood repair of infrastructure such as bridges, roads and boat ramps. As a result the 2017 / 2018 Plan delivers another large investment in infrastructure through Capital works of \$6.8M, which includes \$4.5M in new assets and \$2.2M for the reconstruction, renewal and rehabilitation of our existing assets.

Some of the major budget allocations for projects include:

- > \$897,000 for the Wynyard Goldie Street North Carpark;
- > \$450,000 for improvements of the Wynyard Wharf Carpark;
- \$825,000 for a new boardwalk between the Wynyard Wharf and Wynyard Yacht Club precinct, subject to receiving State Government funding for the renewal of the Wynyard seawall;
- \$615,000 for the remediation of Camp Creek;
- \$690,000 for the completion of the Somerset Village Development Plan;
- > \$280,000 for the renewal and/or upgrade of the Inglis River Trail; and
- \$183,000 for the completion of the Council administration building upgrade.

Operationally, the Council staff has concentrated on business improvement, utilising LEAN principles and processes to identify operational and efficiency savings in excess of \$400,000. The result of this work, together with the Council itself diligently focusing on its processes and financial management, has resulted in the organisation being able to deliver its first operational budget surplus since 2007.

The Annual Plan is projected to achieve an underlying surplus of \$219,257 which is an excellent result. It should be noted that a comprehensive deficit of \$501,966 will be recorded due to the \$1.42M advanced payment of the 2017/18 Financial Assistance Grant in the prior financial year.

We would both like to thank the Council's staff for their dedication and commitment to delivering this outcome on behalf of the community.

Always front of mind for the Council is the need to keep rate increases to the minimum level possible, and at the same time deliver on the services expected by our community. Unfortunately cost escalation is an ongoing reality that all businesses have to deal with. The Council's Long Term Financial Management Plan links our rate increases with the Local Government Association of Tasmania's Council Cost index which came in at 1.5% for this year. Accordingly, this Annual Plan has been prepared on the basis of an increase in the general rate of 1.5% and for the first time in three years it has been necessary to increase the waste management charge by \$10 in order to maintain that service at a break-even level.

We commend the 2017 / 2018 Annual Plan to you all.

CR ROBBY WALSH Mayor

### INTEGRATED PLANNING FRAMEWORK

### SUSTAINABLE MURCHISON 2040 COMMUNITY PLAN

The foundations for Waratah-Wynyard Council 10 Year Corporate Strategic Plan were laid in 2015-16 with Sustainable Murchison 2040, a joint planning initiative of Waratah-Wynyard, Circular Head, West Coast, King Island and Burnie City Councils. Sustainable Murchison 2040 describes the community's preferred future; provides analysis of regional resources, community infrastructure and demographic trends; and proposes actions to meet the region's challenges and opportunities.

Sustainable Murchison 2040 provides a framework for action through initiatives associated with business and industry, tourism, strong communities and social capital, access and infrastructure, natural resource management, health and wellbeing, education, place making and liveability, and governance and working together.

Community input into Sustainable Murchison 2040 has been essential to the development of the Plan. This input is comprised of more than 1,900 responses gathered through a series of community consultation sessions, an online survey, a school program, council workshops; and community leaders' forums.

The Community Vision for Sustainable Murchison 2040 articulates the following preferred future for the region:

Rugged natural beauty and productive landscapes	Side by side the natural beauty of ocean, coastlines, rivers and mountains with our rich, fertile productive landscapes inspire who we are and how we live.
Connected to each other and engaging with the world	There is an enduring connection to our past, present and future. We are outward-looking, engaging with the world to learn, and responsive to opportunities.
Thriving, vibrant communities	Our communities thrive with healthy lifestyles, employment, education and training opportunities. People choose to live in our attractive townships and region. We are self-reliant and support each other.
Adventurers, producers and makers	Our story is of people producing and making quality products that are valued by the rest of the world. Our adventurous spirit guides innovation, aspiration and experiences that challenge and excite.

In determining how best to incorporate Sustainable Murchison 2040 into Council's 10-Year Corporate Strategic Plan, Waratah-Wynyard has been informed by the Tasmanian Role of Local Government (RoLG) project. This initiative of the Premier's Local Government Council aimed to define the role of local government, determine the capabilities required to carry out this role, and identify the opportunities and challenges facing the sector.

The project found that councils have a pivotal part to play as 'hubs' for Tasmanian communities. It identified eight fundamental roles for Tasmanian local governments:

- Sense of place
- Community engagement
- Strategic leadership
- Land-use planning

- Economic development
- Services and assets
- Legislation and by-laws
- Representation and cooperation

The project acknowledges that no two councils will fulfil these roles in exactly the same way. Rather, councils will place a different emphasis on each of the roles in order to meet the needs of their individual communities. Waratah-Wynyard Council has closely considered its strategic activities against these roles in the development of Waratah-Wynyard Council 10 Year Corporate Strategic Plan.

### <u>CORPORATE STRATEGIC PLAN 2017 – 2027</u>

### VISION

To deliver innovative, sustainable services to our community through strong leadership, clear direction and collaborative relationships.

### MISSION

Building our community and region, providing leadership, a strong voice and delivering outcomes based on value for money.

### **CORE VALUES**

Our Council Core Values are:
Respect
Honest
Ethical
Pride
Fairness

Inglis River Walkway - Table Cape Road Bridge to Bass Highway

Plaza Square, Somerset – Continuation of Somerset CBD Development Plan

### **ANNUAL PLAN AND BUDGET 2017/2018**

The Annual Plan and Budget contains the major actions and initiatives for the Council's 2017 / 2018 operations. Of all of the documents that sit within the integrated planning framework, the Annual Plan has the most significant influence on the daily activities of Council staff.

Development of this year's Annual Plan has included a strong engagement process between the community, elected members and Council management through which the operational priorities and major actions/initiatives were identified along with the annual budget estimates for each functional area.

The progress of these actions and initiatives will be reported to Council on a quarterly basis with the year end results being presented in the Council's Annual Report.

Our Guiding Principles in delivering our budget are as follows:

Guiding Principle 1:	Guiding Principle 2:	Guiding Principle 3:	Guiding Principle 4:	Guiding Principle 5:
We Care:	We are a Team:	We find better ways:	We are Professional:	We are innovative:
Engagement – We engage with and be approachable to the community. We will genuinely understand the community and its needs	Cooperation and collaboration – We enthusiastically work together as a team with clear and common purpose, with genuine commitment to respect, trust, communicate and include so that people feel valued.	Value for money – We are committed to continuous improvement of both ourselves and the Council through learning and development opportunities which enhance skills and knowledge and ongoing service reviews to provide efficient and effective services, which meet community needs.	We are Professional: Professionalism – We are ethical, honest and reliable in all of our dealings. We seek to trust and be trusted and are committed to being transparent to the community.	We are progressive by being open to new ideas, ready to deal with disruption, adaptable and proactive in our work.

### KEY FOCUS AREAS, OUTCOMES, STRATEGIES & ACTIONS

# Key Focus Area 1: Leadership and Governance

Waratah-Wynyard Council will deliver an openly transparent, inclusive, community-focussed governing body. We will pride ourselves on a strong sense of belonging and fairness based on trust, honesty and approachability.

### PUBLIC HEALTH GOALS AND OBJECTIVES

Council has a responsibility under various legislation, such as the *Local Government Act 1993*, *Public Health Act 1997*, *Food Act 2003* and the *Environmental Management and Pollution Control Act 1994*, to provide for, and support, a healthy environment and lifestyle for residents and visitors to our area. The goal is to provide our community with education and an environment in which risks to health, particularly relating to air, water, noise etc. are mitigated.

Officers endeavour to promote a high standard for the food prepared and sold in our area through inspection and education.

These objectives are met by the on-going inspection, licensing and registration of the relevant businesses and temporary food stalls involved, and the promotion of education sessions for food handlers. The quality of water for both recreational purposes and human consumption is also monitored, and sampled for testing regularly during the warmer months and investigated whenever concerns are evident or raised.

A school immunisation program is carried out in conjunction with the State Health Department and an adjoining contractual Council. A Sharps disposal program to assist in protection from the adverse effects of communicable diseases is also provided.

Council has an ongoing commitment to minimising the adverse effect of pollution or nuisance by preventing and controlling those incidents, wherever possible. Officers regularly carry out investigations of noise, smoke, dumping of wastes when it is reported or noted and work with the relevant parties to educate them and resolve issues in breach of the legislation. Officers also continue developing information sheets which will provide guidance to the general public in avoiding or reporting if necessary, on the most regular public concerns. These documents will be made available on the Council web site as developed.

The public health goals for 2017 - 2018 are as follows:

- Provide public education and community engagement opportunities.
- Review service delivery standards.
- > To better manage health and environmental threats arising from human activities.
- Provide full suite of Public and Environmental Health documents and issues on Council's website.
